ANNUAL E-GOVERNANCE REPORT

2023-24

St. GREGORIOS TEACHER TRAINING COLLEGE, MEENANGADI

Meenangadi P.O. Wayanad, Kerala, 673577, Affiliated to University of Calicut, Recognized by NCTE and ISO Certified

The application of information and communication technology (ICT) in organisations to deliver user services, increase productivity, and advance democratic values is known as e-governance. It serves as a platform for the prompt, effective, and transparent provision of services to all parties involved. E-governance's primary goal is to improve an organization's operational efficiency and transparency. The constant demands of the digital era are the source of this need for efficiency and transparency. The idea of e-governance is based on several fundamental principles, including more affordable and efficient communication, ease of use, accountability, openness, and enhanced customer service.

St. Gregorios Teacher Training College is making every effort to stay up to date with the latest developments in e-governance, which involve the performance of numerous tasks online and in digital form. The College Management provides the required infrastructure. Utilizing computers, laptops, interactive whiteboards, and other e-devices, teaching faculty members, non-teaching staff, and students can reap the benefits of contemporary technologies in higher education.

To oversee and control the computerization of all academic, financial, and administrative activities associated with the College, University of Calicut, and National Council for Teacher Education (NCTE), a well-equipped IT Administration Unit has been established. By planning ahead and adhering to the established schedules, the coordinator for e-Governance and Administrative Units will oversee the processes of data gathering and uploading.

2. Administration

The College administration has stepped ahead in the direction of paperless administration and almost all communications with higher authorities are realized online through e-mails, LMS and other digital formats. The ICT based significant institutional tasks carried out online as part of the e-governance program are outlined as:

- Maintenance & disclosure of comprehensive information on the College web-page
- Development of ICT based infrastructure in the College.
- Liaison of the Principal with the Management, members of various Statutory and Non-Statutory Bodies as well as the teaching and non-teaching staff through e-mail
- Fulltime Internet facility with high-speed bandwidth (150 mbps)
- College Office linked through intranet with the Principal's Office for online supervision
- Availability of LAN and internet connection
- Biometric attendance for students and employees
- Regular updating and maintenance of the College web-site

5. Examination system

Under the scheme of autonomy, there is a fully computerized Examination Unit. The digital features of the Examination unit include;

- Payment of Examination fees
- Online downloading of Hall tickets
- Conduction of Online Theory & Practical Examinations and Online submission of Answer Scripts and Assignments
- Publication of End Semester Examination Results in the College Website.

The overwhelming response of human resource to digital technology has strengthened the prospects of e-governance in different areas of operation.
